## Professional Summary

Results-oriented .NET Developer with a strong foundation in computer science and practical experience in designing, developing, and deploying enterprise-level applications. Adept at working in Agile environments, with expertise in C#, ASP.NET Core, RESTful APIs, and front-end technologies. Committed to delivering secure, optimized, and innovative solutions.

---

## Skills

### Programming Languages:

- C#, VB.NET, JavaScript, TypeScript, Python, PHP, SQL, C++

### Frameworks & Platforms:

- ASP.NET Core, Entity Framework Core, SignalR, Blazor

### Web Development:

- HTML, CSS, Bootstrap, jQuery, React, Razor Pages

### Database Management:

- SQL Server, MySQL, PostgreSQL, MongoDB, Redis

### Cloud & DevOps:

- Azure, AWS, Docker, CI/CD Pipelines, Azure DevOps

### Tools & Technologies:

- Visual Studio, VS Code, Git, Postman, Swagger, PowerShell

### **Testing:**

- xUnit, NUnit, Postman Testing

### **Other:**

- RESTful APIs, Microservices, Identity Server, OAuth, JWT Authentication
- 

## **Professional Experience**

### **Dotnet Developer**

**Insoft Research & Development** — Pokhara, Nepal  
**Jan 2024 – Present**

- Worked on backend development using Microsoft SQL Server and C#.
- Developed and optimized dynamic and interactive websites.
- Utilized SQL Server Management Studio and other related tools for database management.

### **President of Tech Talk Committee**

**La Grande International College, Pokhara, Nepal**  
**Jun 2023 – Jun 2024**

- Led the tech committee to organize seminars, workshops, and coding competitions.
  - Enhanced team leadership, organizational, and communication skills.
  - Promoted collaboration between students and faculty to strengthen tech programs.
- 

## **Education**

**Bachelor's Degree, Information Technology**  
**La Grande International College** — Pokhara, Nepal  
**Dec 2019 – Jul 2024**

**Activities and Societies:** Tech Talk Committee

**Skills Learned:** Tailwind CSS, TypeScript, and more.

---

## **Projects**

## **Notify App**

- Developed a common website for managing different notification providers along with the message status.
- Optimized implementation of notification in your application saving the initial setup time by more than 50%.
- Implemented user-specific notification preferences and delivery methods.

## **Service Pro Project**

- Built a service management platform for scheduling and tracking services.
- Designed RESTful APIs for third-party integrations using nodejs and mongodb .
- Enhanced user experience with responsive design.

## **Restaurant Management System**

- Created a system to manage reservations, orders, and inventory for restaurants.
- Implemented role-based authentication for staff and admin users.
- Optimized database queries, improving system responsiveness by 35%.

## **Anime-Site**

- Developed a platform for anime enthusiasts to explore and rate shows.
- Integrated APIs for fetching anime data using php.
- Built user profiles with personalized recommendations.

## **Game Hub**

- Designed a central hub for managing and playing various games made using VB.NET.
- A place for your favourite computer games.

## **Hook Game**

- Created a casual game using C++.
- Designed engaging levels and mechanics to increase user retention.

---

## **Languages**

- C#, VB.NET, JavaScript, TypeScript, Python, PHP, Java, SQL, C++
-
